user1: I think in politics today both parties are very hypocritical. I am overall disappointed in both political parties these days.

user2: I agree that there is hypocrisy amongst both parties, but I think it is more predominant with Republicans.

user1: I can see where you are coming from there. I would have to agree sometimes I feel the same that Republicans are quite hypocritical these days.

user2: Yes, especially in regards to the Roe v. Wade decision

user1: Yes, absolutely I couldn't agree more with that.

user2: I think that you should not be forcing women to have babies and then offer no health care, no social programs etc

user1: Exactly, It's hard to understand how they don't see how wrong that is.

user2: I wish more people could see what is obvious to so many of us.

user1: I do as well.
