user1: I think that republicans are more hypocritical because they just cause way too much problems and are not as nice as democrats.

user2: Okay, this is kind of difficult because I have to think of specific examples, probably. I want to say they both have a fair share of hypocrisy but my bias says... Republicans, probably. I think mostly in terms of like, pro-life stuff, stuff like that.

user2: Yeah, I agree they tend to not be as nice or as open-minded in general.

user2: Like, I have relatives that are Republican and I find that their viewpoints don't even really make sense to me, like they seem really intelligent and then will have a bogus reason for not being vaccinated.

user1: They cause so much problems to the United States and they divide the nation in my opinion.

user2: Agreed.

user1: Same here

user2: Nice chatting with you :)

user1: Same with you!!
